

Features

- 7*100+200 watts
- DSP Audio Processing
- Three In, One Out
- Signal-to-noise ratio (pass-through mode, A-weighted) > 86 dB
- Total Harmonic Distortion (4Ω/1kHz) ≤ 0.2%
- Frequency response: 20Hz-20kHz, ±2dB
- Input sensitivity 500mV
- Maximum input level 1.8
- Power supply voltage 180-240V/50Hz
- Power supply output 900W
- HDMI HD: Supports HDMI 2.0 version for receiving and transmitting.
- Supports 3D.
- Supports ARC (Audio Return Channel) for TV signal transmission
- Supports HDMI dark mode and xvYCC.
- Video format supports 4096/2160 standard 2K HD with backward compatibility; capable of decoding DTS and Dolby
